

Hope Research Fund Impact

\$13.5m donated towards \$50m goal

With an additional \$3.5m pledged

Lung Foundation Australia’s Hope Research Fund invests in life-changing lung disease and lung cancer research. With the help of our generous Gift in Wills donors and Major Gifts, we aim to raise \$50m by 2030 to accelerate ground-breaking research that will bring new hope – a hope for a cure.

Central to our Mission to improve the lives of the 1 in 3 Australians who are impacted by lung disease or lung cancer, we invest in the best and brightest lung health researchers to enable them to make ground-breaking discoveries in prevention, diagnosis, treatment and cure.

- The Cassy Morris Foundation
- Family and friends of the late Mrs Carolyn Riordan
- Mr Dennis Stopps
- Mr Desmond John Hickey
- Dr Dianne Cox
- Mr Donald Edward Jago
- Mr Donald Somers
- Mr Eric Philips
- The Evangeline Lim Lung Cancer Foundation
- Ms Gillian McGimpsey-Evans
- Mrs Helen Irving and family
- Ms Jean Parkin
- Mr John Farrell
- Mrs Judith Wilson
- Mr Kane Morris and Tahlia, Kiara, Harper Morris
- Family and friends of the late Laxmi Vanza
- The Lizotte Family
- Mrs Margaret Mayes
- Mrs Martha Louise Sims
- Mrs Mavis Walker
- Ms Rabia Manchanda and family
- Mrs Rehle Cheney
- Trail to Triumph

Round 3: \$840,866 invested

Research Awards

- 8 Travel Grants
- 3 Research Innovation Grants
- 3 Early and Mid-Career Research Awards
- 1 PhD Scholarship
- 12 Strategic Partnership Grants

- 14 Lung Cancer
- 4 Pulmonary Fibrosis
- 2 Respiratory
- 3 Advocacy
- 3 Interstitial Lung Disease
- 1 Chronic Obstructive Pulmonary Disease

Partnership Grants

Centre of Research Excellence in Pulmonary Fibrosis (CRE-PF)

Lung Foundation Australia, working with the CRE-PF, is pleased to announce a \$5.37m five year grant from the Lung Foundation Australia Hope Research Fund. This contribution to the University of Sydney and the CRE-PF will allow the nationally collaborative team to undertake a comprehensive and cutting edge research, education and capacity building program.

Heart of Australia

\$50,000 for Occupational Lung Disease screening.

Victorian Cancer Agency (VCA)

Collaboration with the VCA via the Low-Survival Cancer - Philanthropic Research Fellowship (LSC-PRF) scheme, valued at \$330,000.

Cancer Australia

\$750,000 over 5 years for early-career research grants through the Priority-driven Collaborative Cancer Research Scheme.

LGBTIQA+ Framework

\$45,000 to develop community of practice and framework from which innovative research can grow.

Medical Research Future Fund

Supporting 6 successful project proposals as part of the Medical Research Future Fund 2022 Round.
